INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, JUNE 2, 2000 - 0530 MDT NATIONAL PREPAREDNESS LEVEL III

#### CURRENT SITUATION:

New large fires were reported in Colorado and Florida. Minor initial attack activity occurred in the California, Western Great Basin, Southwest, and Southern Areas. The National Interagency Coordination Center mobilized helicopters, a lead plane, air attack, infrared aircraft, radio equipment, engines, meteorological equipment, and miscellaneous overhead. Very high to extreme fire indices were reported in New Mexico, Arizona, Utah, Colorado, Nevada, California, Oklahoma, Texas, Kansas, and Mississippi.

### SOUTHWEST AREA LARGE FIRES:

An Area Command Team (Harbour) is assigned to manage the large fires in northern Arizona.

VIVEASH, Santa Fe National Forest. A Type I Incident Management Team (Bateman) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. The fire received 1/10 inch of rain yesterday during the passage of afternoon thunderstorms. Crews have begun to construct direct fireline on the east side of the fire. Pecos Canyon has been reopened to residents.

PUMPKIN, Kaibab National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 25 miles northwest of Flagstaff, AZ. The fire has been less active due to favorable weather and diminished winds. Crews are continuing burnout operations along control lines and roads. Mop up is progressing well.

CERRO GRANDE COMPLEX, Bandelier National Park. An Area Command Team (Edrington) and two Type II Incident Management Teams (Praytor and Carr) are assigned. The fire is near Los Alamos, NM. Ignition caused by rolling material on steep slopes on the west side has caused some containment problems. Rehabilitation work is progressing under the direction of the Burned Area Emergency Rehabilitation team.

#### SOUTHERN AREA LARGE FIRES:

MICROWAVE, Florida State Division of Forestry. This fire is in Osceola County, FL. It started on 5/5 and has grown to 1,500 acres. Crews

successfully completed a burnout operation.

SUNSET, Florida State Division of Forestry. This fire is in Osceola County. Spotting is causing containment problems. No current threats at this time.

RETENTION POND, Florida State Division of Forestry. The fire is burning in swampland near Orlando, FL. Crews are running hose to flood swamp areas. Inaccessibility of the fire area is causing containment problems. One subdivision is still threatened.

BASS HIGHWAY, Florida State Division of Forestry. The fire is in Osceola County, southeast of Orlando, FL. Spotting continues to be a problem in the marsh area of the fire.

CARLTON RESERVE, Florida State Division of Forestry. The fire is ten miles northwest of Port Charlotte, FL. Spotting is causing containment problems.

SWILLEY COMMAND, Florida State Division of Forestry. The fire is in Hillsborough County, east of Tampa, FL. No new information was reported.

GREEN SWAMP COMPLEX, Florida State Division of Forestry. This complex includes all the state fires in Citrus, Sumter, Hernando, Pasco, and Lake counties. Fires over 100 acres (with acreage in parenthesis) include: CHAIN LINK (2,507), GREEN SWAMP GROVE (550), USDA (131), DM (700), DW (100), CROOKED PINES (100), and SLOANS RIDGE (112). Mop up operations are continuing on all the fires.

#### ROCKY MOUNTAIN AREA LARGE FIRES:

WINTER FLATS, Grand Junction District, BLM. This lightning caused fire is 16 miles north of Grand Junction, CO. The fire made a significant run with the passing of a cold front. Continued high winds, spotting, and frost-killed fuels are contributing to containment problems.

HALEY, Grand Mesa-Uncompandere-Gunnison NF. The fire is 20 miles north of Nucla, CO on the Uncompandere National Forest. The fire is burning in ponderosa pine, sage and oakbrush. Diminished winds and lower

temperatures have caused fire behavior to moderate. No structures are threatened.

### EASTERN GREAT BASIN LARGE FIRES:

SWEETWATER, Vernal Field Office, BLM. A Type II Incident Management Team (Shell) is assigned. The fire is located about 50 miles southeast of Vernal, UT. Observed fire behavior includes occasional torching, but no significant fire growth has occurred. Dozers and crews have commenced fireline construction.

### OUTLOOK:

\*\*\* A FIRE WEATHER WATCH IS POSTED IN WEST CENTRAL FLORIDA AND THE FLORIDA PANHANDLE FOR LOW RELATIVE HUMIDITIES \*\*\*

Florida will be partly cloudy. There is a slight chance of showers and thunderstorms in the panhandle and the extreme southern part of the state. Temperatures will be 85 to 95. Winds will be northeast to southeast at 5 to 15 mph. Minimum relative humidities will be between 35 and 50 percent.

Arizona, New Mexico, southern Utah, and southern Colorado will be partly cloudy with isolated afternoon thunderstorms over the mountains of New Mexico and in the Four Corners area. East of the continental divide, there will be scattered showers and thunderstorms. High temperatures will range from the 70's in the northern mountains up to the low 100's in the deserts. Winds will be south to west at 10 to 20 mph. Minimum relative humidities will be from 10 to 20 percent.

California will be mostly sunny except for morning clouds and fog along the coast. Temperatures will be from the mid 60's in coastal areas up to 110 in the deserts. Winds will be less than 12 mph except along the

coast, where winds will reach 18 mph. Minimum relative humidities will be 10 percent in inland areas and up to 35 percent along the coast.
